News Alert
Bentley Systems Wins Company of the Year
at 2021 Construction Computing Awards

EXTON, Pa. – January 24, 2022 – Bentley Systems, Incorporated (Nasdaq: BSY), the *infrastructure engineering software* company, today announced that it won Company of the Year at the 2021 Construction Computing Awards.

Bentley is honored to be recognized in the construction technology sector. The company attributes its success to Bentley's SYNCHRO software, which offers a complete portfolio of integrated applications from field to office for digital construction management. Together, the applications enable teams to win and deliver heavy civil projects more efficiently by improving the use of data to optimize decision-making, resources, and profitability.

Bentley was also a finalist in eight other categories in the competition, including:

- BIM Software of the Year
- Architectural Design Software of the Year
- Collaboration Product of the Year
- Project Management Software of the Year
- Asset Management Software of the Year
- Structural Engineering Application of the Year
- GIS/Mapping Product of the Year
- Product of the Year

The winners were chosen based on readers' online votes over the course of six weeks, with a panel of industry-expert judges making the final decision. Competition was fierce, with the awards open to all software vendors within the AEC industry in the U.K. and Ireland. The winners of the 2021 Construction Computing Awards were announced at the Leonardo Royal Hotel London City in downtown London. Over 200 supporting guests gathered to see the outcome of the readers' online voting and judging panel's deliberations.

Simon Horsley, Bentley’s vice president and regional executive for the U.K. and Ireland, said, “We are honored that Bentley won Company of the Year at this year’s Construction Computing Awards. As the *infrastructure engineering software* company, we strive to bring best-in-class solutions throughout the entire project lifecycle, including construction. This award could not have been possible without our loyal, committed users voting for us, as well as our colleagues working hard every day to deliver our solutions.”
